

# Destination Stars

Make souvenir blocks using Tokens, CharmStamps™ or fabrics collected at shops on your QTrek journeys.

Use the same set of squares and rectangles to make multi-size blocks that can be trimmed to fit where you need them.

**Quilters Trek**

Trim to finish at 8", 9", 10" or tweak to fit the size needed for your quilt layout.

## Materials

- Eight** 2-1/2" squares for star points (matching or scrappy)
- Four** 3-1/2" background squares (avoid background prints with one-way designs)
- Four** 3-1/2" x 4-1/2" background rectangles
- Four** 2-1/2" Tokens or square scraps or a CharmStamp™ **trimmed to 4-1/2" sq.** or a 4-1/2" sq.

## Assembly (Use 1/4" seam allowances)

1. Use a ruler and pencil to draw a diagonal line on the back side of the eight 2-1/2" star point squares.
2. Arrange a star point square, right sides together, on the corner of a background rectangle as shown. Note the direction of the line.
3. Stitch on the drawn line using the 'sew and flip corner' method. Trim and press. Repeat with the other corner of the rectangle to complete one star point unit. Make four units.
4. Join the tokens or scrap squares to make a 4-1/2" square center unit. Omit this step if using a CharmStamp™ or 4-1/2" fabric square.
5. Arrange the center unit, star point units, and background squares as shown.
6. Join the units and squares together in rows. Then join the rows and press.
7. The block now measures **10-1/2"** square. It can be used as is or trimmed down to **9-1/2" sq. or 8-1/2" sq.** with a square-up ruler.
8. Center the ruler over the star and trim all four edges to your desired size.
